Within 24 hours you will receive a link to the template.

Open it in your personal google drive.

The screenshot shows the Google Drive interface. On the left is a sidebar with navigation options: 'New', 'My Drive', 'Shared drives', 'Shared with me', 'Recent', 'Starred', 'Trash', and 'Storage' (showing 1.9 GB of 15 GB used). The main area displays a shared folder 'Copy the template to your drive' containing two files: 'Template' (a blue icon) and 'readme' (a document icon). The 'readme' file is circled in red. A yellow callout box with blue text says 'Open read me first And read the instructions'.

Template

readme

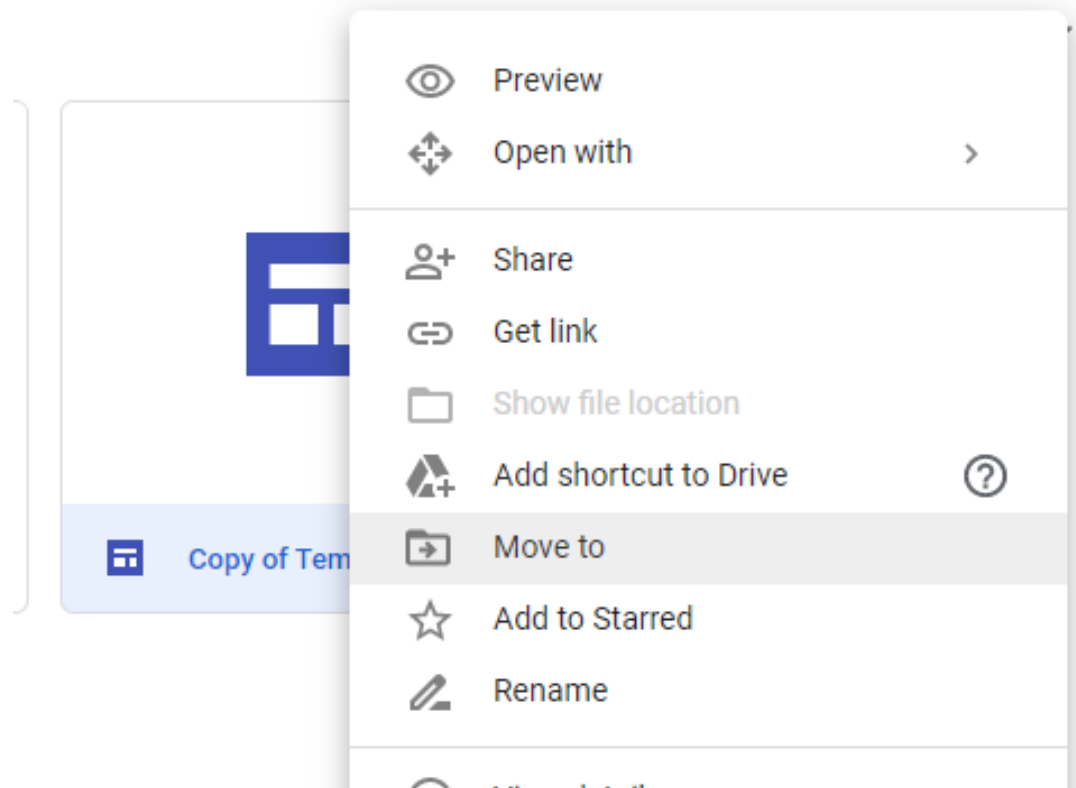

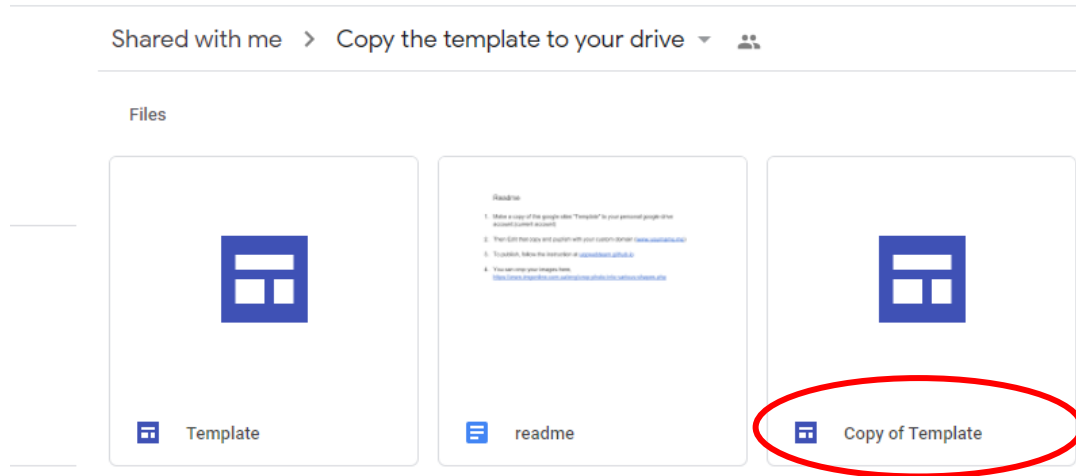

Open read me first
And read the instructions

Right click on the Template file and click on make a copy

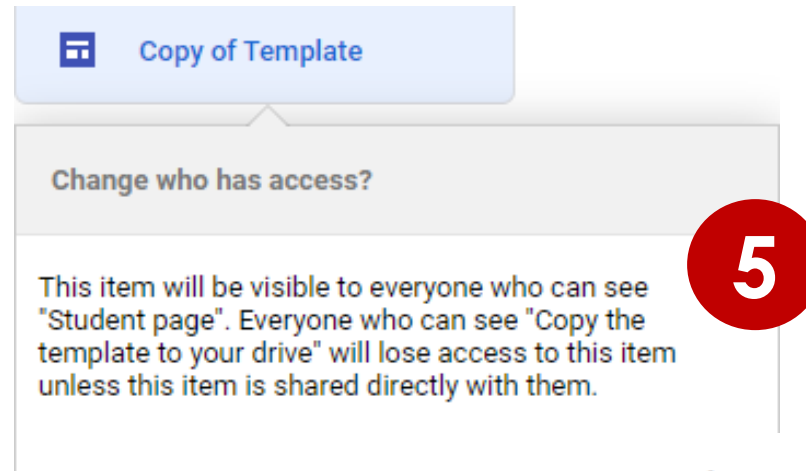

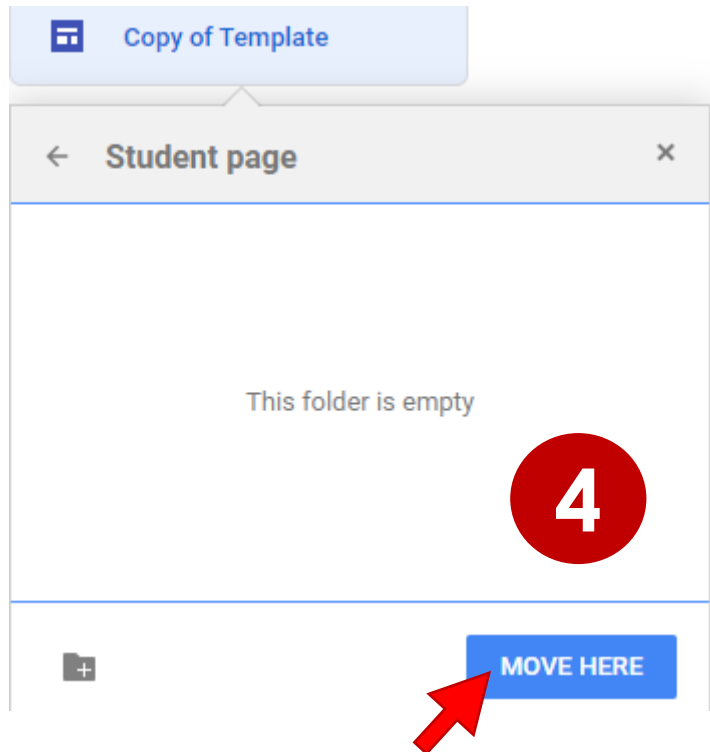

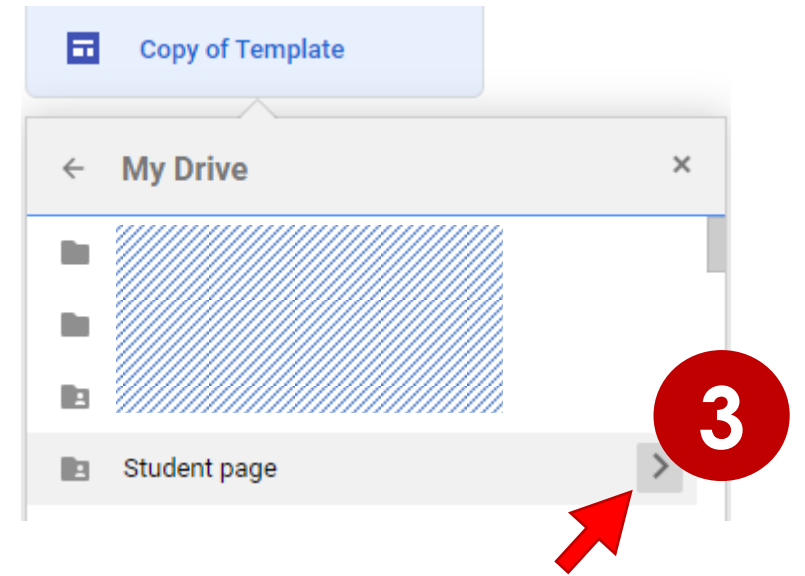

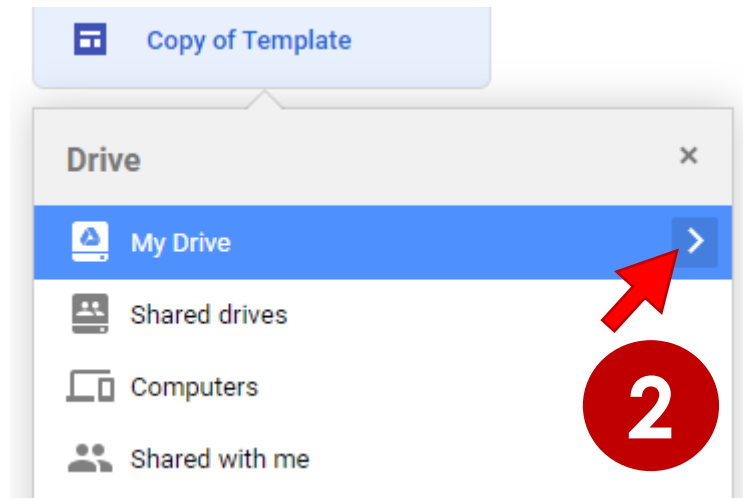

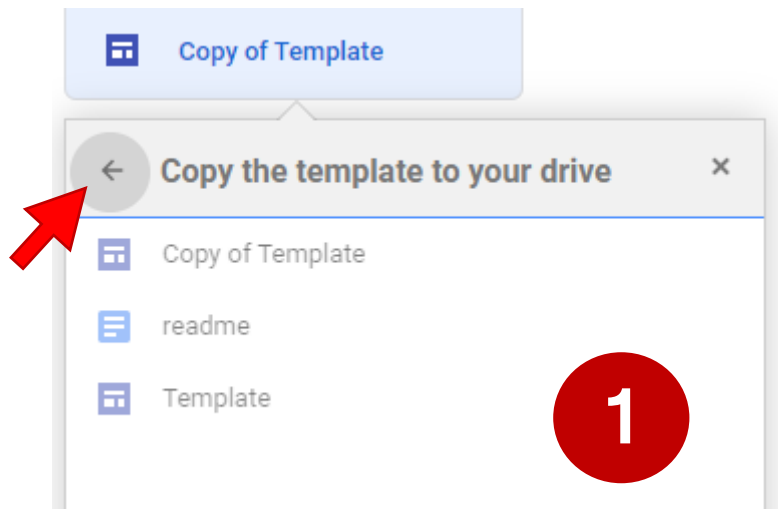

You don't need to open the file

Right click on the Copy of Template and move to your drive

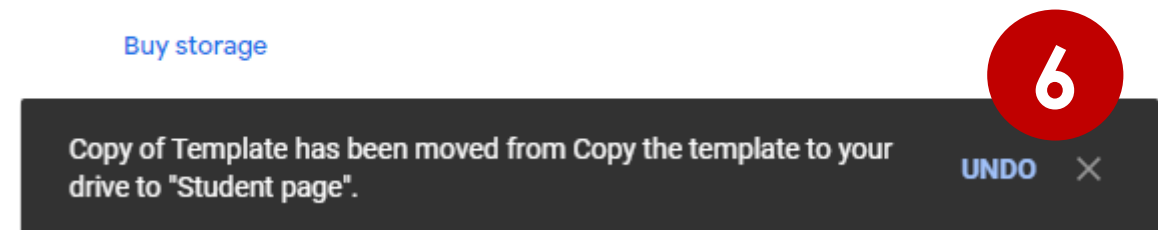

Follow the steps in the next page

Ignore step 5 and click Move

Now you have made a copy of the template in your drive

Please follow all the steps in the previous slide carefully and **do not start editing** your copy **inside** the **shared drive**

Move the **copy** to **your drive** and then start editing

Now edit your personal page template **copy** and publish with your **.me** domain

To publish your site go through the
“How to manage your domain in namecheap account
and publish your website?”

**Access to the shared template folder will
be removed within 48 hrs**

But you can continue editing your copy...
